

FIT FOR JOB IN ITALY, CENTO

Monday, February 15th:

We met at 9 o'clock at school and went to Borgo Panigale, near Bologna, by bus. Because we were too early we had some free time and we spent it in a small cafe, where we tasted some sweets. After that we went back and had the opportunity to visit Ducati's factory with a guide's explanation. We noticed that everything in the factory is clean and very well organised, factory workers wear uniform and most of the workers are young because you have to be strong to build a motorbike. We also noticed that Ducati offers some students to learn how to build a motorbike even if they're still attending school. After small excursion in a factory we visited Ducati's museum, where we saw the oldest Ducati models but also the newest ones, we heard about Ducati's history and saw drivers uniform. At lunch time we left and visited Bologna, there, when we had free time, we went to Altero Pizza, which is the most famous pizza in Bologna. After lunch Italian students showed us Bologna and told about Bologna's secrets, also Italian students showed us some monuments and told about their history. At 16.30 we went to the bus and went back to Cento.

Tuesday, February 16th:

We met at 8 o'clock and went to Ravenna. In Ravenna we visited five churches, saw many important mosaics and saw old town. In the afternoon we had some free time which we used for the shopping and lunch. After free time we went to mosaic workshop, where we had opportunity to make our own mosaics. We really enjoyed making mosaics, but we were a bit disappointed because we wanted to make something personal but instead we had to make flowers like everyone. At 16 o'clock we went to a bus and at 18.00 we were back home.

Wednesday, February 17th:

We left Cento with our group at 7.50 and went by bus to Maranello, near Modena. In Maranello we arrived at the Ferrari museum, where we had the chance to experience a pit stop. At 10 o'clock a guide explained us how everything works in Ferrari marketing and Formula 1 and its team. After telling us about everything he gave us an iPad and we had a test about everything he told and test our speed. After that we experienced the pit stop, which was very interesting and everyone enjoyed it. Then we visited the museum where we saw different cars, we had a chance to sit in a car and F1, also guide took pictures of us which we could buy. We saw some secret cars, which were prototypes. While students were at the museum, some students took a test drive by Ferrari California, they enjoyed it a lot! After test drive all of the students met and got on the bus, we went to the hospital to have a lunch. When lunch was finished, we went to the bus and made our way to Modena. At 15 o'clock we were at Modena. We saw the main square, Piazza Grande, and church, the Duomo, then from 16 till 16.30 we had free time to explore city by ourselves, after free time, we had to come back to the bus and went home, at Cento we were at 17.40. At 19.30 we (Emma and Valerija) went to Benedetta's house, where we had wonderful dinner.

Thursday, February 18th:

At 8 o'clock we met at school, in order to work on a project Fit For Job, after hard work we had orientation, where we needed to find given objects in Cento. While we were trying to find all of the given objects, we had an ice cream and had fun together with other guys. At 13 o'clock we met our group and went to another school, where we had lunch at "Erasmus Restaurant" prepared by our teachers, we tried a lot of foods and sweets. After lunch we

had time to finish our projects. When projects were finished, we had free time till 19 o'clock, when we had dinner with all project people at the restaurant.
